PARIS, BOURBON COUNTY, KENTUCKY, FRIDAY, AUGUST 17, 1917

"WAR GROOMS" WILL HAVE TO SERVE IN ARMY.

Recent orders from Provost Marshal General Crowder, at Washington, have played havoc with "war husbands," especially in this section, where the disease almost assumed the form of an epidemic. Those who married hastily, seeking to avoid drafting, and men making small wages, who sought to gain exemption on the ground of dependants, will have hard sledding this time. On account of them many Paris and Bourbon county men will be leaving in September for the training camps to become soldiers in the new national army, instead of remaining at home, and eventually engaging in a domestic war.

The orders caused a new move Wednesday, when a number of men from this county went before the District Board at Lexington and said that they had filed claims for exemption, but after hearing of the report from the Provost Marshal General they would withdraw their claims and let their names go unprotected on the roll of honor. The new regulations issued from Washington are as follows:

"To Governors, Adjutants General and Members of the Local and District Boards:

"To secure uniformity of interpretations, compiled rulings of the Provost Marshal General on questions concerning the execution of the selective-service law will be published from time to time and forwarded to the Governors of the several States for distribution to local and district boards.

"E. H. CROWDER,

"Provost Marshal General.

"(a)—Recent Marriage as a Ground for Discharge Under the Dependency Clause.

"The selective-service law does not require discharges in all cases of technical legal dependency, but only permits discharges where in view of dependency a discharge is advisable. Local boards may well hold that a marriage recently hastily consummated, and especially one consummated by a person after he has been called to present himself for examination to determine his fitness for military service, does not create a status of dependency in which it is advisable to grant a discharge. It is to be expected that local boards will exercise this full discretion in cases where they are convinced that unscrupulous persons have thus violated the principles of the selective-service law in the hope of escaping a duty that is rightly theirs and of passing that duty on to someone else.

"(b)—Soldier's pay as affecting dependency.

"A soldier's pay is not less than \$30 a month, and all clothing, subsistence, medical treatment and housing are furnished him. Under the law he may allot any portion of his pay to a dependent. Many soldiers receiving \$30 a month are easily able to allot \$25 monthly to the support of dependents. In case of death in line of duty the government will pay to the beneficiary designated by the soldier six months pay. Section 4 of the selective-service act provides that those in a status with respect to persons dependent upon them for support which renders their exclusion or discharge advisable may be discharged, but it does not require that they shall be discharged in all such cases. The discretion of local boards is invoked by this provision, and such boards may well take the facts recited above into consideration in deciding claims for discharge due to dependency, with a view to determining whether, as a matter of fact, the person claiming such discharge will not be in as good or better position to support his dependents after selection for military service than he was before. If such is the case, of course, the discharge should not be granted."

FORMER PARISIANS IN THE NAVY AND ARMY.

Mr. Collier C. Dawes, of Georgetown, former Secretary of the Bourbon County Y. M. C. A., is now a First Lieutenant in the army service, having been one of the number recently commissioned at the Officers' Reserve Corps training camp at Ft. Benj. Harrison.

Mr. Allen Ferguson, son of Mr. and Mrs. Earl Ferguson, of Georgetown, former residents of Paris, has been advanced in rank in the navy service, and is now taking advanced work at Harvard University in the radio squad. Mr. Ferguson enlisted last spring.

FUGITIVE CAUGHT.

Elmer Braxton, colored, one of the three prisoners who escaped from the Scott county jail in Georgetown last week, was captured on the Hill pike near Centerville, in Bourbon county, Tuesday, by Scott county Sheriffs. Braxton attempted to escape, but was pursued in a machine by the officers to the very door of a house where he was captured.

CLAUDE M. THOMAS CANDIDATE FOR SPEAKER.

The recently-made announcement of Hon. Claude M. Thomas, of Bourbon county, that he will be a candidate for Speaker of the next Kentucky House of Representatives in the General Assembly is the first gun in the contest that will be waged in the General Assembly this winter between the opposing forces of the "wet" and "dry" elements.

Mr. Thomas, it is announced with authority, will have the support of the Democratic Forward League, which was organized to promote and support the movement to have a State-wide prohibition amendment submitted to a vote of the people. It is expected that the "wets" will have a candidate in opposition to Mr. Thomas, who is an avowed prohibitionist, but just who will oppose him has not yet been announced. With the strength that will naturally come to Mr. Thomas, and the organized support of the Democratic Forward League at his disposal, it is anticipated that he will enter the race for the Speakership with good prospects.

Mr. Thomas returns to the Legislature after several years' absence, having served as Representative and State Senator some years ago.

COSTS YOU NOTHING.

(17-2t) THE A. J. WINTERS CO.

THE NEWS FINDS 'EM.

"It pays to advertise." This assured fact has been proven so often in so many ways that it becomes an irksome task to keep putting it before the public. If you want to find a lost article advertise it in THE NEWS.

A short time ago a valuable locket belonging to a little daughter of Mr. and Mrs. Earl Swearingen was lost. The loss was advertised in THE NEWS. Within two days the locket was found by a young man who said he saw the "ad" in THE NEWS, and was restored to the owner who gratefully acknowledged the value of advertising in THE NEWS.

Honestly, we are of the opinion we could find Jim Allen's long-lost gold-headed umbrella left standing in the Cynthiana National Bank somewhere between 1871 and the present time, if properly advertised in THE NEWS.

All of which goes to show that THE NEWS is widely-read. They must have it, even if they have to steal it from subscribers' door-steps, or borrow it from their neighbors.

LABOR BUYS LIBERTY BONDS.

While it is not possible to give exact figures either as to the number of subscribers or the amount of bonds bought, yet reports from many corporations and firms which are large employers of labor show that the working men of America were numerous and liberal purchasers in the initial two billion dollar issue of Liberty Bonds.

There can be no doubt that the working men of America are a class of citizens whose patriotism and ability afford a tremendous market for government bonds.

CHINA JOINS IN THE WAR AGAINST GERMANY.

Reuter's Limited News Agency, of London, Eng., has been officially informed that China has declared war upon Germany and Austria-Hungary, the declaration dating from 10 o'clock Wednesday morning.

China is the seventeenth nation to array itself with the Entente countries against the Central Powers. The decision of the Chinese Cabinet to declare war on Germany and Austria-Hungary was reached August 2, and the action of the members of the ministry was approved by Feng Kwo Chang, the acting president of the Republic.

Official notice of China's declaration of war on Germany and Austria-Hungary was received in Washington, at the Chinese legation in cable dispatches from Peking.

SPEAKING OF CORN BREAD!

Corn bread and other substitutes for wheat bread as a means of food conservation by hotels and restaurants were discussed at a recent session of the annual convention of the International Stewards' Association. A new compound yeast, which is claimed will mean a great saving in grain and other yeast-making materials, was discussed by Dr. E. R. Shively, of Mellon Institute, University of Pittsburgh, official chemist of the association. Dr. Shively declared that until American bakers were able to produce a better grade of corn bread its substitution for wheat bread would not become general.

POPE BENEDICT DELIVERS PEACE PROPOSALS TO BELLIGERENTS.

Peace proposals made by Pope Benedict have been delivered to all the belligerent governments.

The Pope suggests restoration of Belgium, Serbia and Rumania, and peaceful solution of the problems of Alsace-Lorraine, Trent, Trieste and Poland.

According to reports received from Vatican sources, it is expected the proposal will be published by the Vatican.

Reduction of all armament, settlement of all international disputes by arbitration, freedom of the seas and no retaliatory after-the-war economic struggle for supremacy are the foundation stones of the Pope's peace proposal.

The Pope's proposal declares that the injuries to all belligerents have been so great there should be no thought of reparation except for the return of territory.

Included in the restoration of territory, the Pope's proposal insists, should be the return to Germany of all her colonies, as well as the complete restoration of Belgium to her sovereignty.

WHEAT AND FLOUR TAKE DOWNWARD TENDENCY.

Wheat was quoted on the local market yesterday at \$2.10 per bushel, a drop from last week of \$2.35 per bushel, following the action of the Government in taking over the control of all foodstuffs. Receipts have been rather light.

There has been a corresponding drop in the price of flour, that staple being quoted yesterday by the Paris Milling Co. and E. F. Spears & Sons at \$13.55 per barrel. Another small decline is probable.

Following the drop in corn in wholesale quantities, corn on the retail market declined seventy-five cents a barrel to the new price of \$11.25. Little corn is being sold on the retail market in Paris. Oats remained at 99 cents per bushel for best re-cleaned quality.

MASHED FOOT BADLY.

Bart Burberry, of the Centerville precinct, had his foot badly crushed in a hay baler yesterday. He was taken to Georgetown, and it was thought the member would have to be amputated.

Reversible weather is unusually due to slippery sidewalks.

BOURBON COUNTY BIBLE SCHOOL CONVENTION.

Nearly four hundred delegates and visitors were in Millersburg, Wednesday, to attend the sessions of the Bourbon County Bible School Association. The sessions were held in the Millersburg Christian church, presided over by Newton L. Shropshire, of Clintonville, as president.

A number of distinguished visitors were present, among them being Mrs. Ida Withers Harrison, of Lexington, who made one of the principal addresses of the day; Homer C. Carpenter, Chancellor of Transylvania University, and Mr. McQuarley, of Cincinnati, a member of the Foreign Missionary Society. The presidents of three adjoining associations were also present: A. B. Adcock, of Clark county, C. T. Eales, of Harrison county, and J. J. Collins, of Scott county. The delegates and visitors were guests of the congregation of the Millersburg church during their stay.

The program as published in a previous issue of THE NEWS was carried out in its entirety. The music, in charge of Mr. A. L. Boatright, of the Paris Christian church, was an especially notable feature of the meeting, and was greatly enjoyed.

THREE OF A KIND.

Ezekiel Whitney, a colored tenant on the old Bedford farm, near Paris, was presented a few days ago by his wife with triplets, all boys.

Whitney, who was formerly a soldier in the United States army, is an enthusiastic admirer of Col. Theodore Roosevelt. He was so elated over the additions to the family circle that he immediately named the new-comers "Teddy the First," "Teddy the Second" and "Teddy the Third." A photograph of the three Teddies and the parents was made by a local photographer and forwarded to Col. Roosevelt at Oyster Bay, with a note reminding him that Whitney was showing his anxiety to stamp out race suicide.

Whitney served under Col. Roosevelt during the Spanish-American War.

SOME FISH.

While on a fishing trip to Licking River, Tuesday, Judge Charles A. McMillan made a splendid catch in the shape of a catfish weighing forty pounds. The big fish was served at a local restaurant to the Judge and a number of intimate friends who pronounced it of splendid quality.

A CITY ORDINANCE TO WHICH NO ATTENTION IS PAID.

THE NEWS does not wish to appear in the attitude of a grump or a scold, but there is certainly a limit to patience, and a time when forbearance ceases to be a virtue. All this has to do with a city ordinance in regard to drivers of automobiles and other motor driven vehicles using mufflers.

Residents of Pleasant street are almost driven to their wits' end by the constant noise and racket occasioned by careless and reckless drivers who leave their mufflers open, as they make a speedway of the street. There is a city ordinance, observed only in its constant violation and utter disregard, which prohibits open mufflers. Yet it is an everyday occurrence to hear a machine go by making a noise, and a most unnecessary noise, like a freight engine with the blower on. Numerous complaints of these hideous noises have been made from different sections of the city, yet absolutely nothing has been done toward suppressing them.

If there is any reasonable and just excuse for some under-headed idiot going through the business or the residential section of the city with the muffler of his machine wide open, even the automobilists have been unable to admit it. They tell us that it is inexcusable, yet it seems some drivers have a desire to let the public know their machines have a muffler rather than have them go in ignorance of that important fact.

We have heard complaints made by residents of Pleasant street of inability to sleep on account of these nerve-racking outbursts of exaggerated muffleritis. Others have almost reached the point of taking the law in their own hands. There isn't a city the size of Paris in this State where such a rank violation of an ordinance is permitted. Is it going to keep on indefinitely in Paris? Is there any recourse under the law?

We have ourselves experienced something of the nuisance complained of. We have known auto drivers to stop their machines in front of this office and leave their engines running, and even the mufflers open, for thirty minutes at a time—yet there is an ordinance against it. But as between friends what does an ordinance amount to in Paris?

WORK PROCEEDING ON NEW DIRECTORY.

The work of compiling data and names for the new city directory of Paris, which is being done by the Hoffman Directory Co., of Quincy, Ill., is proceeding rapidly.

A large force has been busy locating names and place of residence of Paris citizens, and the hope is expressed that no one will be missed, and that the book will be a complete one in every respect. The men have been somewhat hampered in their work by the incomplete system of numbering houses. In many cases residents had lost or misplaced their number slips, and could not tell the number of their houses. Others had their numbers but had not gone to the trouble of putting them in place.

The work on the directory will be completed in a few days, and the book, it is expected, will be published and placed in the hands of subscribers by Sept. 20 at the latest. The directory people are aiming to make the new book the most complete of its kind in the State.

CLASS IN MILITARY TRAINING.

A class in military training may be instituted in Paris, if Miss Alice Rogers Clay are carried out.

Miss Clay, who is now in Chicago, will return to Paris about the latter part of August. She has been taking a special course of training in military tactics, for several months, having previously taken a similar course at Chevy Chase, near Washington, D. C.

Miss Clay desires to organize a class in military training for women and girls in Paris, the entire proceeds of the tuition to be given to the Red Cross Society. Those who are interested may obtain further information by applying to Dr. Martha Petree before the return of Miss Clay.

DRAFTED MEN ARE BARRED FROM NAVY.

Orders countermanning those received a few days ago allowing drafted men to be enlisted in the navy with the consent of the local exemption boards were received by the navy station at Lexington, Wednesday. Provost Marshal General Crowder has ruled that the men drafted cannot be taken from the National Army on the grounds of enlistment in any other branch of the country's service. The new orders state that the navy has not less than seven or eight million men of draft age to draw from and those below the age of twenty-one in addition. An extra effort is being made to get men between seventeen and twenty-one.

BOURBON FARMING CONDITIONS.

Crop conditions in Bourbon county this week are reported as being very favorable. Corn, hemp and tobacco all present very excellent prospects, and the farmers are optimistic for banner yields and bumper crops. The farmers have been very busy this week, and the few who attended fairs in the vicinity wished themselves back home at work.

Tobacco topping is in progress and it is reported that the crop will be ready for cutting at about the usual time in this county. The quality of the weed is better than last year, and, although buyers are offering fifteen cents per pound for the new crop, not many sales are being reported, farmers preferring to hold for the open market, which they believe will give them a twenty-cent average.

Corn is suffering somewhat from the long dry spell, but has been benefited by the recent rains, which helped it to mature. The crop, it is estimated, will be the largest raised in Bourbon county for many years. The price of corn is still \$10.50 per barrel on the wholesale market and \$12 at the retail dealers.

Pastures and gardens have taken on new life since the rains. Beans, tomatoes, and all such products as are being canned by the thrifty housewives of Bourbon, will be more plentiful now and greatly improved in flavor and quality.

Farmers are reported to be baling straw in greater quantities this year than usual to help provide for the anticipated shortage of feed this winter. The hay harvest is over and the crop has turned out fairly well. The price has taken a slight upward tendency since last week.

The wheat crop is practically all threshed. The price has dropped from \$2.35 per bushel to \$2.25, with a corresponding drop in the price of flour. This action was taken by reason of the recent taking over by the Government of the control of foodstuffs in the United States.

WILL LEAVE PARIS.

Mr. Keene F. Daniel has placed the property in which he has been residing, at Nineteenth and Main streets, in the hands of a Paris real estate firm for disposal at private or public sale, and with his family, will move to London, Ky.

Since the horrible and tragic death of his wife under the wheels of an interurban car in front of their home a few days ago, Mr. Daniel has been grief-stricken, with no desire to return to the home so rudely desolated. He is engaged in the lumber and timber business, which requires his personal attention most of the time.

GARTH FUND BENEFICIARIES.

Pursuant to an order from the Commissioners of the Garth Fund, Messrs. E. M. Dickson, John T. Collins and C. M. Thomas, the present beneficiaries of the fund are expected to appear before them at the court house on Monday, August 20, for examination. They will be required to submit a report of their expenditures of the fund for the past school year, together with their reports.

On the following day, Tuesday, August 21, new applicants for the benefits of the fund will be examined. These are requested to bring their recommendations and school reports for the past school term. The examinations will be conducted by Prof. E. M. Costello.

FOR THE HOSPITAL.

The members of the Womans' Board of the Massie Memorial Hospital request that the housekeepers in the city and county remember the Hospital pantry during the season for canning and drying fruits and vegetables.

A pantry shower is held every year about Thanksgiving and donations of supplies will be more appreciated this year than ever before on account of the high prices that prevail. There is a number of empty jars at the Hospital, and these will be cheerfully given to any who will refill them.

These jars filled with good things such as the housewives of Bourbon county know how to prepare will be a boon and blessing to the Hospital.

PRESENTED WITH MEDAL.

Sergeant Alexander McClintock, of Lexington, who served in the Eighty-seventh Battalion Canadian Grenadier Guards from September, 1915, to November, 1916, when he was badly wounded, was presented with a distinguished conduct medal at the British Consul General's office in New York. He has been accepted for the Second Plattsburg officers' training camp.

Sergt. McClintock's series of articles entitled "Over There," recently concluded in THE NEWS, were read with interest by hundreds of readers.

Speaking of Tomatoes

A pioneer citizen of Paris was telling us the other evening about the days when the tomato, one of the favorite vegetables at this time, was shunned by everyone and pointed to as being "rank poison." Doubtless you have heard your own father or mother tell about the time they first became acquainted with this now popular food, and you've smiled when they explained how at first they called them "love apples," and only had them about the house and garden for ornamental purposes. But we daresay there are among Bourbon county people many who may still harbor the belief that, like corn, and potatoes and beans, the tomato has always been considered an edible vegetable.

As near as it is now possible to tell, the first tomatoes grown in this country were from seed brought to Virginia by Horace B. Smith, a native of Bordeaux, France, but a globe-trotter and for many years a resident of the West Indies. It was while he was in the West Indies that he discovered the fruit or vegetable, whichever you may prefer to designate it, and even at that time the natives were not acquainted with its edible qualities. From the seed sown in Virginia the tomato, or "love apple," soon found its way to the other colonies. Along about 1819 a French chef visiting in this country came upon the tomatoes and announced that the discovery had been made in his land that properly cooked and not partaken of in too great quantities the tomato made an excellent article of diet. And he prepared for the old Virginia family of William Stanberry, Esquire, what is believed to have the first dish of tomatoes ever served in this country.

The "love apple" was slow in gaining popularity, however, and even the opening of the Civil War found people of a number of Western States in ignorance of its good properties from a food standpoint. But Americans, quick to grasp anything that is good, and especially that which is good for the stomach, soon discovered that, instead of being "rank poison" the tomato, now served on millions of dining tables and in scores of ways, is a delightful food.

A statement from Chicago is to the effect that there are just eight times as many chickens in cold storage as at any time last year. Now when one disappears from Paris we will know where to look.

That Stitch In Time.

Residents of Paris have possibly noticed that so far this season very

few cases of infantile paralysis have been reported throughout the country. Paris people recall the fearful epidemic which swept over New York and a number of large Eastern cities last summer, and doubtless many have wondered why, with the return of the hot, summer months, it had not broken out afresh.

Here is the solution. Last fall in New York there was perfected a very unique organization known as the "Anti-Litter League." The members realized that through clean streets and good sanitary conditions they could prevent a repetition of last summer's epidemic. It often takes a great calamity to arouse a people to action. Before old Pharaoh would give his consent for the children of Israel to depart out of the land of bondage his people were afflicted with a number of plagues, but not until the death angel visited the homes of the Egyptians and killed the first-born in every home would the Egyptian ruler give his consent. Even so it required strong measures to awaken the people of New York. And when they did the "Anti-Litter Society" was the result.

Here in Paris each and every man and woman should be an "Anti-Litter Society" within themselves. Carelessness is to blame for streets and sidewalks being littered with scraps of paper, banana peels and the hundred and one things which the people in their thoughtless moments cast away, without even giving a thought to the results. Garbage cans may be placed at convenient places, but some people think they are there solely for ornamental purposes, or at least they fail to make use of them.

There is no need of waiting for an epidemic of disease to start in Paris before beginning to keep the streets and alleys clean. Now is the best time to throttle an epidemic—before it starts. It can be done, as it has been done in New York, only when every man and woman in Paris appoints himself and herself a committee of one to see that the streets are not littered up.

All of those U-boats have to start from somewhere, and they have to have somewhere to go for their supplies. That's why we can't understand why someone hasn't discovered by this time where the place is located.

FOR MOTHERS, SISTERS, SWEET-HEARTS.

Have you a son in one of our army training camps, a brother, or a sweetheart? Read Mary Woodson Shippey's stories in the Southern Woman's Magazine of all the splendid things these boys are learning in Uncle Sam's big soldier-schools.

Perhaps you will be a little bit less lonely and less sad when you realize what wonders in the way of training and discipline, and what wonders in the way of true reverence and patriotism and ideal manliness are being developed.

Our boys will be finer men to the very end of their lives, because of the service they are giving to the world.

You will be more than glad to read what Mrs. Shippey has learned about all of this at first hand. Next month she will tell about the boys in the artillery and cavalry training camps, and after that she will write of the aviation school whose graduates are to take so spectacular and so tremendous a part in winning our victories.

GOVERNMENT TO SUPPRESS EXCESSIVE USE OF GASOLINE.

Warning of the possibility of drastic action by the Federal Government to stop excessive pleasure use of automobiles during the war in order that the gasoline needs of the United States and its Allies may be met, is given in a statement issued by Director Van H. Manning, of the Bureau of Mines, in which he asks the co-operation of automobile owners in stopping the practice.

Enough gasoline to care for the requirements of America and perhaps that of its Allies will be saved, in the opinion of Mr. Manning, "if automobile owners of the country will stop unnecessary and extravagant pleasure riding and if the owners and dealers handle this fuel in a careful and economical manner."

IT'S NOW BRIGADIER GENERAL ROGER WILLIAMS.

Nominations of more than 200 new major generals and brigadier generals who will hold commissions in the new army were sent to the Senate Wednesday by President Wilson. They include all the national guard general officers.

Among the nominees were Roger D. Williams, of Kentucky, who will be a brigadier in the new army.

DISCOVER CONSPIRACY TO CORNER TOMATOES.

Evidence of a conspiracy among large packing interests to corner the entire tomato output of the Pacific coast has been discovered, it was said Saturday at the offices of the Federal Trade Commission in Washington.

CHRONIC CONSTIPATION.

It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.

PRESERVE WHAT YOU CAN.

Preserve what you can. Can what you can. Dry what you can. Lose nothing of perishable products that it is possible to save.

Preserve as many products in your garden as you can. Can, Dry, Evaporate, Pickle or Brine. By the drying method, all of the surplus water is driven off by placing the products on trays in the sun, over a stove, or before an electric fan. Dried fruits and boxes tight enough to exclude insects. Soaking in water will bring the products back to a large extent to their original state, and they may be cooked like fresh products.

There may be a shortage of cans and glass jars, but all kinds of receptacles can be utilized. Put fruit juices in ordinary bottles, sealing with a cork and paraffin. Preserved or jammed fruits or berries can be put in glasses and sealed with paraffin, or in wide-necked bottles if the cans or jars are not readily obtainable.

Dry such vegetables as sweet corn, snap and string beans, shelled beans, shelled peas and the root crops. If you have plenty of cans or jars all of the above named vegetables can be canned. Write for bulletin on canning if same is desired.

Do not have an empty container in your home next fall. Do your part to prevent food waste.

GOOD RESULTS.

Reports from the Officers' Training Camps indicate that the results in the central fifteen States, called the Central Department of the Army, including West Virginia, Kentucky, Ohio, Indiana, Michigan, Wisconsin, Illinois, Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Missouri, Kansas and Colorado, far exceed the results in the Eastern, North Eastern, South Eastern, Southern Departments, with the Western Department yet to be heard from.

A total of 31,792 applicants were received in this territory to fill 5,796 vacancies at the Training Camps. This assures the country the best possible choice of candidates for commissions and makes it possible to provide a capable set of men to lead the new National Army.

Kentucky has sent a splendid lot of young men to Camp Benjamin Harrison, and it is certain that they will make a good record in the service of the United States.

THE EWING FAIR.

The twenty-fourth annual meeting of the Ewing Fair and races began yesterday and will continue for three days. The program is bigger and better than ever. Many new departments have been added this year. One of the best bands in the State will furnish the music, and Littlejohn with his United Shows, nine carloads, accompanied by his famous Italian band, makes this one of the biggest years this company has ever undertaken.

Thousands of people from adjoining counties will attend this year, and the company has made preparations to take care of larger crowds than ever before. Get the habit of attending the Ewing Fair.

Hear Michael's Band, of Covington, all three days.

MANY THOUSAND SHINGLES SHIPPED BY PARCEL POST

(Popular Mechanics Magazine.)

A Western lumber company made exceptional use of the parcel-post system not long ago when it shipped a consignment of 30,000 shingles through the mails. The destination of the shingles was fifty-two miles from the shipping point and the postal charges were less than \$50. Although a shipment of this size is uncommon, the parcel post is frequently used in the Western States to send supplies to remote places in the stock-raising country as well as to the mines, many of which are far from the beaten paths of travel, and so have no adequate railway facilities. The lot of shingles referred to went via a star rural delivery route.

COMMA IS A LITTLE THING, BUT, OH, MY!

A comma is a little thing, sang a soap-box lyrist in Times Square, in New York, the other afternoon, but oh! oh! what a difference it makes here and there. Grammar for the masses was the plea of the shirt-sleeved gent and he was retailing it at 30 cents a throw, bipping included.

To show the value of the little comma he wrote upon the black-board at his back, the sentence:

"Ah! Woman, without her, man is but a beast."

An excellent sentiment, agreed the street corner philosopher. But look! The comma was transferred and thus the sentence read:

"Ah! Woman, without her man, is but a beast."

BIG SHIPMENT OF SHEEP.

Caywood & McClintock, of Paris, shipped Wednesday to the New York markets one of the largest consignments of lambs ever sent out from Paris. The shipment comprised 1,742 lambs, which were purchased last December from Thos. Henry Clay, Sr., and sons, Thos. Henry Clay, Jr., and George Williams Clay at good prices. The purchasers will realize nearly \$5,000 on their investment at present prices in the market.

DR. GANFIELD WILL STAY IN KENTUCKY.

Dr. W. A. Ganfield, of Center College, Danville, has announced that he had declined the call to the presidency of Carroll College, Waukesha, Wis., from which he went to Danville in June, 1915.

"It is true that I have been asked by the trustees of Carroll College to consider their hearty and unanimous call. I am, however, very much devoted to my work at Center College and am every much in love with Kentucky. I believe that the people of this State and the friends of Center College want me to stay, and I am sending a letter to all my boys and young men, telling them I will be ready to receive them at Center with my very best smile on September 12. I believe Kentucky could confer on me no greater honor or pleasure than that of being president of famous old Center."

MARGOLEN'S Sanitary Meat Market

GOVERNMENT TO PURCHASE IN OPEN MARKET.

In order to give the farmer and breeder the opportunity to sell direct to the Government, the Secretary of War has authorized the Quartermaster to purchase mature specimens in the open market, and any farmer or breeder who can supply one or more carloads of animals at sanitary place suitable for feeding, inspecting, branding, and loading on cars, is invited to get in touch with army purchasing officers. The types of mules required are wheel mules, load mules and pack mules.

STOMACH AND LIVER TROUBLES.

No end of misery and actual suffering is caused by disorders of the stomach and liver, and may be avoided by the use of Chamberlain's Tablets. Give them a trial. They only cost a quarter.

THEY'RE STILL AT IT!

THE NEWS knows they're still at it, for we have seen them! This may not be a very lucid statement, but the explanation will follow. The pavements of Paris are still being used as speedways for boys and girls who persist in riding bicycles on them without either bell or lights. We saw three on the pavement near the court house in one afternoon, and in making our rounds through the city in quest of news, discovered a number of others who had taken possession of the pavements, to the peril of the unfortunate pedestrian whom necessity compelled to keep out of the way of the speeding automobiles in the streets.

There is the ordinance. The election is over. The police have now no fear of offending a possible voter. Let the nuisance be stopped, and the kids compelled to go where other vehicles are, in the street. And they should be compelled, also, to observe the law by having warning bells or horns and lights.

There is absolute danger in the practice of riding bicycles on the pavements. We saw one woman near the postoffice have a very narrow escape from being run down the other day. It is likely to happen to anyone at any time when the youngsters come dashing down a street without warning.

TEACHERS ELECTED.

At a meeting of the Bourbon County Board of Education, held in the office of Miss Mabel Robbins, County Superintendent of Schools, in the court house, Miss Jimmie Bowles was elected teacher of the Eals school, and Misses Cordelia Oder and Mary Stagg teachers of the consolidated High School.

It was decided that all the county school should begin on Monday, September 10, for the fall and winter term.

CHURCH CHOIR CONCERT AT NORTH MIDDLETOWN

The choir of the Paris Christian church will give a musical concert at the North Middletown Christian church to-night, beginning at eight o'clock. The music will be under the direction of Mr. A. L. Mrs. B. R. Dickerson
Chorus, "Gloria Patria" Mozart
Duet, "Sweetest Story Ever Told" (secular) Stults
Mrs. Dickerson, Mr. Boatright
Chorus, "Aarm of the Lord" Porter
Duet, "The Lord is My Shepherd" Geo. Nevin
Mrs. Foster, Mr. Boatright
Chorus, "Sanctus" Gonoud
Duet, "Come Holy Spirit" Jerome
Miss Hattie Hill O'Neill, Mrs. H. E. Foster
Chorus, "Seek Ye the Lord" Roberts
Cornet Solo Selected
William M. Talbott
Solo, "Come Unto Me" Handel
Mrs. W. M. Talbott
Male Quartette, "Crossing the Bar" Adams
Messrs. Boatright, Hendricks, Mitchell, Hinton
Chorus, "Inflamatus" Rossini
Miss Clara Belle O'Neill, Organist.
A. L. Boatright, Director.

A BEAUTIFUL SIGHT.

Read the A. J. Winters Co.'s advertisement on page four in this issue and see what is in store for you, on Wednesday and Thursday, August 22 and 23.

BATHERS SHOULD BE CAREFUL.

Bathers who are not perfectly familiar with the devious ways and windings of Stoner Creek should be careful as to the locality they are in. As a rule the banks of the creek slope very sharply, making the water at an ordinary stage anywhere from twelve to fifteen feet in depth. The creek is fed by hundreds of small springs of icy cold water in the bed of the creek. Venturesome bathers diving are apt to strike these cold currents, producing cramps before the bather can return to the warmer water nearer the surface.

There are shallow beaches at a dozen different points along the creek, affording an ample stage of water for bathing purposes. These are the places for beginners and others who are not expert swimmers. A little care may be the means of saving several lives.

RAILROAD PAY DAY.

Wednesday was a glad day for local employees of the Louisville & Nashville. Their pay checks were handed out, followed by the distribution of several thousand dollars among Paris merchants.

HOME TELEPHONE NOTES.

Miss Maude Day is taking a much needed vacation, after many months of arduous work. Miss Day is spending her vacation with friends and relatives at Two Rivers, Wisconsin.

Miss Gladys Snapp, of Paris, has accepted a position in the office of District Manager J. J. Veatch, as stenographer.

Miss Irene Lenihan has taken a position in the local office as cashier. Miss Lenihan is very popular and will make an efficient and faithful worker.

Mrs. A. Burgin, who resigned her position as chief operator some months ago to take a position in the grocery of C. P. Cook & Co., has resumed her old position as head of the forces in the operating room, which is mighty good news to the patrons of the Home phones.

Mr. J. J. Veatch, District Manager, has returned from a business trip to Harrodsburg. Mr. Veatch, with Mr. Minor Corman, of Louisville, General Superintendent, and Mr. J. T. Head, manager of the Lawrenceburg exchange, appeared before the City Commissioners at Harrodsburg, asking that they be granted the privilege of installing pay stations of the Home Telephone Company in that city. After a consultation the Commissioners granted the request. All the details were arranged, and pay stations will be installed in Harrodsburg at once. The granting of this privilege to the Home Telephone Company does not mean that there will be two telephone exchanges in Harrodsburg, but is merely giving the business houses the right to install pay stations of the company at their places so that business will be expedited.

A CARD OF THANKS.

I desire through the medium of THE NEWS to extend my heartfelt thanks to all those kind-hearted friends who contributed to the comfort and ease of my wife during her illness, and to those who helped perform the last sad rites to the dead at her death and burial.

It is a great consolation to me, comparatively a stranger in Paris, to contemplate the many unselfish acts and kindnesses shown us in the trials incident to a long illness and in the consequent bereavement. I shall ever hold grateful memories of the Paris people and wherever my lot may be cast I shall always remember with gratitude those who were so kind to us.

Gratefully,
T. E. McDONALD.

"KING ALCOHOL."

This cantata, rendered at St. Paul M. E. Church by the choir and its friends, on Monday night, was the most high class affair given in several years. Daisy Hitch represented "Columbia," Mrs. Louise Ayers was "Frances Willard" and Wm. Barton was "Uncle Sam," and Homer Nutter was "King Alcohol." Lula Seals and Artie Thomas impersonated the "Two Orphans."

Dr. J. W. Mebane is chorister of the choir and conducted the cantata, which received enthusiastic praise on every hand. Pianist, Christine Mebane; Pipe Organist, Maceo Bishop; Violins, Dr. J. H. Sebree and Mrs. C. D. C. Mebane; Saxophone, Geo. Becket; Pastor of Church, Rev. T. L. Ferguson. Many are urging a repetition at the Opera House.

OFFICERS ELECTED.

At a business meeting of the Epworth League of the Paris Methodist church, the following officers were elected:

President—Finnell Galloway; vice-president—Y. L. Harrison; secretary—Miss Vella Mastin; treasurer—Mrs. James Grinnell, Jr.; corresponding secretary—Miss Edna Snapp. Five offices are yet to be filled by appointment.

Miss Elizabeth Wheeler was admitted as a new member. The members of the society gave an enjoyable social on the lawn at the home of Mrs. James Grinnell, Jr., Monday night.

WILL CANVASS RETURNS.

The State election commission has been called to meet August 18 for the purpose of canvassing the election returns of the State primary. It is likely that on that date the county election commissioners will be selected. The lists have been received from the Republican and Democratic committees of most of the counties.

The canvass of the returns in Bourbon county by the County Commissioners shows no material change from the first reported figures. Certificates of nomination were issued to the successful candidates.

HOME FROM TRAINING CAMP.

The following Bourbon county young men, who have recently received commissions as officers in the U. S. Army service have returned from Ft. Benj. Harrison for a short stay at home: Reuben B. Hutchcraft, Jr., William Collins, Robert Jones, Rogers T. Moore and Frank Caldwell.

They have been in intensive training at Ft. Benj. Harrison for three months. As far as could be ascertained, all carried orders to report at various camps within the next two weeks, and it is probable they will leave for their respective posts before Sept. 1. In most cases the orders call for their appearance at Camp Taylor, near Louisville, not later than August 29.

The Bourbon contingent which arrived here is composed of Captain William Collins, of North Middletown; First Lieutenants Robt. Jones, North Middletown, and Reuben Hutchcraft, of Paris; Second Lieutenants Rogers Moore, of Paris, and Frank Caldwell, of Millersburg.

Editor Warren Fisher, of the Carlisle Mercury, takes the following shot at Lieutenant Reuben Hutchcraft:

"Our old friend, Reuben Hutchcraft, of Paris, has been commissioned a first lieutenant in the officers' reserve. A crackin' good lawyer gone, but we feel sure that if they'll only put Rube 'over the top' when he gets to France and let him howl like a locoed hound, as he was wont to do in those happy college days, when the more pious of the young men of the school had gathered to take tea and fudge, or anything else that was loose—if they'll just let him howl once and give the Dutch a good look at him, the road to Berlin will be open."

Now is the proper time to select your custom tailored suit. We have just received a wonderful assortment from the importers of fine foreign goods.

WHEAT THRESHING ABOUT COMPLETED.

Farmers report that the threshing of wheat is practically completed in Bourbon county, and that the yield is very satisfactory. Millers and farmers say the quality of the grain this year is good and that it weighs heavier than last year.

The acreage was a trifle smaller this year, but the production is larger. The yield ranged from ten to forty bushels per acre, the average being from ten to twenty-five bushels per acre.

Paris millers are still offering \$2.35 per bushel for wheat, but the amount sold on the market continues to be small. Much brought in is stored, and only a comparatively small amount is placed on the market for sale.

SHIPMENT OF TOBACCO FOR U. S. TROOPS LOST.

The Young Men's Christian Association's shipment of tobacco for the American troops in France has been lost. Word came from Paris from the Red Cross Commission in France, saying no suitable tobacco to replace the lost shipments, was obtained there, and urged that ten tons of tobacco be shipped at once.

The Red Cross War Council immediately accepted an offer of the Liggett & Myers Tobacco Company to donate 1,500,000 cigarettes, 20,000 packages of smoking tobacco and 10,000 cuts of chewing tobacco, which will be forwarded to the American troops at once. France has agreed to admit the tobacco free of duty as well as all other articles for the American soldiers.

DRAFTED MEN TO RECEIVE PROPER CONSIDERATION.

Men called for military services under the selective draft law will receive consideration of a nature vastly different from that governing the conscription of the War Between the States or the methods employed in Germany or other nations in forcing men into ranks of the army. In the regulations governing the mobilization of selected men in their home districts for transportation to the cantonments, the President has urged every precaution to dispel the notion of enforced or unwilling service. These regulations, approved by the President, were announced Friday night.

MUSICIANS BADLY WANTED BY NAVY.

Recruiting by the United States navy at its Frankfort station has been discontinued and Chief Gunner's Mate L. L. Hallam, who has been in charge, is now at the Lexington station. Chief Gunner's Mate Manegold, director of the activities, reports that a number of men are enlisting with the idea of becoming ship's cooks, but that musicians are apparently scarce. These are the men most wanted at present.

SUMMER COMPLAINT.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

CHAMBERLAIN SAYS OPPOSITION TO DRAFT WORK OF GERMANS.

Much of the opposition to the draft being stirred up in the United States is the work of German propagandists and vigorous means should be employed to curb the activity of the enemy within, as well as without, declared Senator Chamberlain, chairman of the military affairs committee, in an address at Jacksonville, Florida, before the lawyers and citizens of Jacksonville.

"I do not believe," he declared, "that America has yet been aroused to the dangers which confront her on account of enemies within and without."

Senator Chamberlain defended the right and authority of Congress to enact legislation providing for the selective draft. He pointed out that Washington wrote time after time to the continental congress urging the necessity of draft and telling of opportunities lost for victory after victory because of an inadequate army.

NEAR PERPETUAL MOTION

A German inventor has perfected a clock which seems to be the nearest thing to perpetual motion that has so far been devised. The clock gets its power from a revolving shaft which is impelled by a wheel, whose spokes are capped with hollow glass balls. Each ball is covered with cloth and contains a little ether. As the wheels revolve, the lower balls are dipped in water. The balls that are out of water are cooled by evaporation from the damp cloth. This cooling condenses the ether, which runs down in such a way as to disturb the equilibrium of the system and turn the wheel over.

THE SIXTH SENSE.

Human beings have a real sixth sense, says science, in the shape of a sense of equilibrium. This sense is coming in for much intensive study to-day, because it is probably the most important qualification for a successful aviator. It has been found to reside in the three tiny canals in the inner ear. These three canals are located in the bone of the skull, and are filled with a liquid in which nerve filaments from the auditory nerve terminate. In some way not yet clearly understood, through these canals and nerves, the individual can tell, without being able to see or feel, just how nearly upright his position is. The sense is much more keenly developed in some people than in others.

FIENDISH WORK OF DEVILS IN HUMAN FORM.

British medical officers are trying to determine the nature of the new poison used, it is believed, for the first time by the Germans on the French town of Armentieres, near the Belgian frontier. The poison bore a certain resemblance to the gas which temporarily blinded a large number of British troops a fortnight ago, but its effects are infinitely more serious.

A number of persons taken from Armentieres are in a grave condition. Many have died in hospitals at Hazebrouck, Aire-on-the-Lye, and particularly at St. Pol-on-the-Ternois where more of the victims were taken.

The first time the new poison was observed it coincided with the firing into the town of a hail of small shells of a caliber insufficient to break the paving. These contain neither powder nor gas, but a colorless liquid which spreads over the soil. In the streets and in courtyards and gardens, where the shells burst, traces of the noxious liquids may be found hours afterward.

As the liquid evaporates it produces a heavy gas, which penetrates into cellars. It is tenacious in character and seems to make more victims among women than men, closing about their hair. The fumes of tobacco seem to act as an antidote in the case of men.

The odor is variously described as resembling that of acetylene, mignonette or pungent mustard. Its effects are not imminent. Some inhabitants of Armentieres who inhaled the emanations in the forenoon returned home without experiencing any ill effects and took luncheon, but five or six hours later they were obliged to take to bed, and their condition became rapidly worse.

The victims at first were affected in the bronchial tubes, then their eyes swelled and eventually they lost their sight. These symptoms were accompanied by a feeling of burning inside and an incessant cough and fever. The skin turned an earthy color and in several cases death followed rapidly. Occasionally, in addition to the symptoms mentioned, the victims were affected by terrible hallucinations and delirious laughter.

CRABS WITH HUMAN FACE.

A crab with a human face is one of the oddities to be found in Japanese waters. Not only that, but the face is surprisingly like that of a Japanese warrior in the "old, unhappy, far off days of the past." This face is formed by the strange figuration of the crab's neck. To see one of the creatures crawling on the sand is to see what apparently is a human face moving across the beach.

According to Japanese history the nation was beset by a plague of piracy a few centuries ago. The coasts were ravaged, vessels sunk and terror spread generally by marauding sea rovers. Then the people organized a fleet and set out to exterminate the pirates. A great battle followed, in which all of the freebooters were slain.

At this point legend steps in. It is said that not long after the battle the first of the crabs appeared. With advancing years the crabs increased in numbers until they are quite common. And not only do they bear the face of a fierce old warrior, but it is strangely like that of a dead man who had been drowned. The superstitions among the natives say that the souls of the pirates entered into the forms of the crabs.

CURIOSITIES OF VISION.

Lecturing on the "Effect on the Eye of Varying Degrees of Brightness and Contrast," before the Illuminating Engineering Society recently, Dr. James Kerr, of the public health department of the London County Council, referred to some effects which may be surprising. Having to examine long lists of figures in black type, he tried to facilitate his task by drawing vertical and horizontal lines in red ink, but the different focusing of the black and red strained his eye and gave him a headache, which did not trouble him when all the figures and lines were either black or red. Dr. Kerr questions whether a target is more distinct when a brilliantly illuminated white disk appears on a dead black background than when the surroundings were diffusely illuminated.

LINES BEING TIGHTENED ON MARRIED MEN.

The district draft boards have received instructions regarding married men who are filing claims for draft exemption. It is indicated that the rules are being tightened to prevent married men, with only flimsy excuses, from being exempted.

The rules show that if the wife is not entirely dependent upon his mental or physical labor; if she has relatives who will support her, if he has an independent income, the married man must not be exempted. If a wife can live on rentals from property owned by the husband, he must serve. If his employer offers to pay his salary or enough of it to support the wife, during the husband's absence, that husband must serve his country.

There are times when a pint of wit goes farther than a gallon of wisdom.

EFFORT TO REPEAT THE MONTGOMERY FAIR.

Efforts are being made to hold an agricultural show in Mt. Sterling this fall, probably the last week in October and prizes from \$30 down for tobacco and from \$75 down for corn and other farm and kitchen products will be offered. Much interest is being manifested in the project and the show will undoubtedly be held if the farmers will show any inclination to back the movement. It is proposed to open the show to farmers of Clark, Bourbon, Montgomery, Bath, Powell and Menifee counties.

PAINTING BRIDGES WHITE.

This interesting item recently appeared in Service Bulletin of Iowa: "A Tama county bridge on the Lincoln Highway in the Indian Reservation and over the Iowa River is painted white. People who cross this bridge at night who are accustomed to the black or red bridges of the majority of Iowa counties, are struck with the ease with which the outlines of the bridge are noted. As a matter of highway safety it would seem to be a good thing to paint bridges white. The same color should prevail on guard rails erected on fills and at dangerous turns where such safe guards are erected. In South Dakota it is becoming a customary practice in some sections to paint all bridges white."

"WAR IS HELL."

A soldier in the English army wrote home, "They put me in barracks; they took away my clothes and put me in khaki; they took away my name and made me 'No. 575'; they took me to church where I'd never been before, and made me listen to sermon for forty minutes. Then the parson said: 'No. 575. Art thou weary, are thou languid?' and I got seven days in the guardhouse because I answered that I certainly was."—Christian Register.

FRED TONEY WINS TWENTY GAMES AND \$1,000.

It was a former pitcher in the defunct Blue Grass League who first made the record of winning twenty games this season, and the gentleman who copped a bonus of one thousand beans for this exploit is Fred Toney, of the Cincinnati Reds. Manager Garry Herrman promised this little present to Toney, if he won twenty games before the end of the summer, after the long boy had played in hard luck all last season, and not only did Toney come across, but he did it right handily, as said before, reaching the twenty-wins mark before any other pitcher in big baseball. Alexander is next with nineteen games and Cicotte the leading pitcher in the American League, has eighteen notches on his gun.

Toney is well remembered in Paris, where he was one of the best pitchers in the good old days when Paris could afford a baseball team, and before the Blue Grass League had perished. Toney broke into the game as pitcher for the Winchester team.

THE PURPLE FLASK.

One by one they shook hands with him and wished him luck. He left the place with Minna, whom he married that night, and the next morning he left her, taking the purple flask with him.

He thought her love for him would give him courage to perform the terrible task ahead of him—but does love weaken or strengthen a man who is about to give his liberty, perhaps his life, to a "cause?" That is the theme of Gouverneur Morris' story, "The Purple Flask," which begins in September Cosmopolitan.

This is only one of the features that makes September Cosmopolitan one of the greatest numbers of the greatest magazines in America.

PARIS MERCHANTS WARNED AS TO CHILD LAW.

Commissioner of Agriculture Matt S. Cohen and Mrs. C. H. Musgrove, Woman State Labor Inspector, have warned the local merchants and citizens of Paris in regard to the law prohibiting employment of child labor.

The notices call attention of the business public to the fact that it is contrary to the law for children under fourteen years of age to be employed in any public business without special permit. No cases of violation of this law have ever been reported here, but the warning is intended as a special reminder in view of the approach of the regular school terms.

PLEASE TAKE NOTICE.

Yes, everybody in this community, (yourself excepted) has told us what to print in THE NEWS; what not to print; how to say it; how not to say it; when to publish it; when not to publish it; who to boost; who to knock; a thousand and one suggestions as to different ways of editing the paper.

And being most extremely obliging, we go ahead and give you the best paper in Paris, just the same as if you were running it! Isn't it strange how business keeps up?

RECORD PRICE PAID FOR YEARLING CALVES.

Mr. Henry Caywood, of the firm of Caywood & McClintock, and the Central Kentucky buyer for Swift & Co., purchased Wednesday of Jake Gay, of Pine Grove, in Clark county, forty yearling Hereford calves for \$12.35 a hundred pounds. These calves weighed around 1,100 pounds each, making the price per head between \$130 and \$140, the highest price ever paid in Kentucky for cattle of similar weight and age. The calves will be shipped to-day to Swift & Co. for their choicest trade.

AN AMERICAN MONARCHY

Once a year the Pueblo Indians of Taos, New Mexico, hold an election at which they choose a governor. The method of voting is for each Indian to give his candidate a stick. The man with the most sticks is elected. Afterward a foot race is an event.

By reason of this annual election, the Taos Pueblos have been generally given credit for maintaining a Republican form of government. As a matter of fact, the real power back of the governor is the Cacique, who is an hereditary monarch. He and the chiefs appointed by him really rule the Pueblo with a rod of iron. The Indians have absolute control of quite an area of rich valley land, and also one wild timbered canyon. These lands constitute in effect a tiny monarchy on American soil. The amount of land each Indian may cultivate is determined by the administration. Every evening the governor shouts from the roof of the Pueblo instructions for the whole tribe. Not a stick of timber may be cut, not even a root dug, without his permission.

Not long ago a lady living in the nearby village of Taos asked a Pueblo squaw to get her some "amole." This is the root of the Spanish bayonet plant and is greatly prized by women as a hair wash. The squaw explained that the time for digging amole had not yet been announced, but that she would try to get it.

It was ten days later when she returned, and she did not bring the amole. She was pale and her face showed the effects of suffering. She explained that she had been given thirty lashes and ten days in jail for digging amole root without the permission of the governor.

LEGEND OF THE NIAGARA.

(New York Evening Post.)
In old, old times, on the highest peak of a great mountain, there dwelt a hunter and his five sparkling daughters. Their lodge was of bright betulia bark, and on clear days they could see the distant ocean flashing like a silver band. "Come out! Come out!" cried the youngest daughter, the little Er. "Come Su! Come Hu! Come Mi! Come Cla!" (The names stand in order for Erie, Superior, Huron, Michigan and St. Clair.) Let us away to the sea, where the foaming breakers roar!" So they left their lodge and leaped and sang with happy hearts. Their robes were of blue and chrysolite green, and floated on the breeze. Their moccasins were of frozen water drops and their wings of painted wind. And they scampered and roamed across the plain, or floated beneath the sky, or rushed past valley and hill and field, singing and shouting with glee. At last they came to a precipice of jagged rocks and moss. "Alas!" cried Er. "what a dreadful leap! But but we have come so far that we must go on, or our father will laugh at us! So come Su! Come Hu! Come Mi! Come Cla! and follow me!" So over the steep they sprang, and floated down on their painted wings. They leaped and they sang like happy-hearted birds. Then the little Er cried, "Let us up and down the steep again!" And up and down the five maids skipped and laughed at the sport and foam and called it Niagara Falls. And to-day, through the rainbow mist, you may see their robes of blue and chrysolite green, and their painted wings and their twinkling feet, as the five play in the waterfall.

3,000,000 HOGS DIED.

(Farm and Family)
The men who deal in figures, report that the above number of porkers died during the past year from diseases. It does not take an expert to show that this big number of hogs, taken off before they were ready for the market, means that the farmers of the United States lost something like \$50,000,000 in good hard money. Of course, the farmer who is approaching 50, grew up when hogs were so dirt cheap that there was no use of trying to save them if they happened to fall sick. He has not thought about this big problem as he should. Now that the world is short, very short, of meat, this loss is big in money and it is big in loss of food which is needed. Each farmer should use every precaution to keep his herd well. He should also have a veterinarian see them the moment they are the least off feed or ailing.

The Most Beautiful Car in America

The Paige is now reaping the reward of conservative financial policies and sound business judgment.

The creation and the continued maintenance of the quality that has made The Most Beautiful Car in America the overwhelming choice of the public, are due to the advantages the Paige Company possesses. These advantages are:

A capitalization far lower than that of any other company approximating the Paige in the sales-increase during the past six months—in which field, by the way, the Paige has distanced all competitors.

Scientific management that keeps overhead expense down to the minimum.

Huge manufacturing facilities operated by modern, scientific methods.

Low profit per car.

There you have in a nut-shell the reasons you can buy Paige quality at so low a figure in these days of high prices.

 W. H. Anderson, Superintendent of
 this division of the Louisville &
 Nashville railroad. He was trans-
 ferred to Ravenna after the Louisville &
 Nashville acquired the Lexington &
 Eastern road, and has since resided
 there. The bride is also a former
 resident of Paris, having been a clerk
 in the Paris Racket Store. With her
 mother she moved to Middletown, O.,
 sometime ago.

DEATHS.

McCANDLESS.

The funeral of Mr. Robt. McCand-
 less, aged eighty-one, who died at
 his home on Second street, Tuesday
 morning at three o'clock, following a
 protracted illness, was held Wednes-
 day morning at ten o'clock. Ser-
 vices were conducted at the grave in
 the Paris Cemetery by Rev. W. E.
 Ellis, pastor of the Paris Christian
 church. The pall-bearers were E. M.
 Gifford, Benj. Lewis, Andrew J.
 Skillman, Sr., Preston Myers, William
 Mitchell and R. C. Foster.
 Mr. McCandless is survived by his
 widow, one daughter, Mrs. Ella Wil-
 son, who resides in California, and
 one son, Mr. George McCandless, who
 is an employee at the P. M. Heller
 meat market in this city.

SHROPSHIRE.

—The funeral of Mrs. Nannie K.
 Shropshire, aged seventy-two, a
 member of one of the oldest families
 in Bourbon county, who died sud-
 denly of acute indigestion at her
 home near Centerville, Sunday night,
 was held Tuesday morning at ten
 o'clock at her home on the Leesburg
 pike, with services conducted by Rev.
 J. B. Jones, pastor of the Cynthiana
 Christian church, assisted by Rev.
 Ira M. Boswell, of Georgetown. The
 burial took place in the Georgetown
 Cemetery.
 The pall-bearers were: Allen
 Shropshire, Harvey Shropshire, Clay
 Shropshire, Newton Shropshire and
 Stuart Shropshire.
 Mrs. Shropshire was the widow of
 Hubble Shropshire, one of the eight
 sons of the late James Harvey Shrop-
 shire, and Mary Louise Shropshire.
 This is the first death in the Shrop-
 shire family for more than a year.
 Mrs. Shropshire is survived by one
 son, Mr. Kirtley Shropshire.

—The Young Peoples' Endeavor
 services will be held in the Episcopal
 church Sunday night at 6:45 o'clock.
 The program will be in charge of the
 Young Peoples' Society of the Bapt-
 ist church. The Union meeting of
 the Protestant churches will be held
 in the same church at 7:30 p. m.

—Rev. Frank W. Eberhardt, for-
 merly pastor of the Paris Baptist
 church, who has been in charge of
 the congregation of the Danville
 church for several years, has accepted
 a call to the pastorate of the Bapt-
 ist church at Georgetown. He will
 receive a salary of \$2,250, and be
 furnished with one of the handsomest
 parsonages in Kentucky.

—The Womans' Society of the
 Christian church will have an all-
 day sewing at the Red Cross sewing
 rooms, in the Wilson building at the
 corner of Third and Main streets,
 next Tuesday. The members of the
 society are requested to be on hand
 promptly at nine o'clock, and to
 bring with them their lunch, needles,
 thread, thimbles and scissors.

—On Sept. 5, at which time the
 annual session of the Kentucky
 Conference of the Methodist church
 will convene in Lexington, Rev. W.
 O. Sadler, in charge of the Paris
 church, will close the third year of
 his pastorate here. At this session
 of the Conference the Bishop presid-
 ing will assign the pastors to their
 various charges throughout the Con-
 ference territory. Paris people hope
 Rev. Sadler will be returned here.
